PROFILE

Computer science engineering student at ESPRIT with hands-on experience building full-stack web and desktop applications using Symfony, Java, PHP, and MySQL. Developed 3 complete academic projects covering authentication, APIs, and database management. Seeking an internship to contribute to real-world software development.

EDUCATION

ESPRIT — **TUNIS**

Integrated Prep Cycle – Computer Science completed — *Graduation Date: Jun 2025*

Currently in the Engineering Cycle (starting 1st year) — *Graduation Date: Jun 2026*

PROJECT EXPERIENCE

PROJET ACADEMIQUE — **ESPRIT TUNIS**

Conservation Company Management App — *Sep 2024 - Dec 2024*

- Development of a desktop application in C++ using Qt Creator
- Creation of an interactive graphical user interface
- Managed databases using Oracle Database
- Integrated external devices through Arduino IDE
- Gained strong skills in desktop development, database management, and hardware communication

PROJET ACADEMIQUE — **ESPRIT TUNIS**

Startup & Investment Platform — *Mar 2025 - May 2025*

- Development of a complete website (HTML, CSS, JavaScript, PHP, SQL)
- Environment: VS Code, XAMPP
- Developed a dynamic website integrating both front-end and back-end functionalities
- Practical use of databases with SQL
- Gained strong skills in web integration and data management

PROJET ACADEMIQUE — **ESPRIT TUNIS**

Residential Management Platform (Web & Desktop) — *Jan 2026 - May 2026*

- Developed a full-stack residential management platform using Symfony 6.4, MySQL , HTML ,CSS, JS , JavaFX , Java
- Built synchronized WEB and Desktop Applications with identical features.
- Implemented authentication and user management (CRUD , Google login , Password recovery , CAPTCHA ,Face ID).
- Designed multiple management modules (residences, apartments, events, complaints, forum) with email notification system.
- Integrated external services (Maps, Weather API, chatbot/live chat, bad-words detection, Google Drive,...)
